## WORK EXPERIENCE

### Trainee at EGAT

06/2014 – 07/2014

### IT Consultant and Software Developer

11/2016 – 02/2017

### Information Technology Officer (SAP FI-CO Consultant)

06/2018 – 07/2019

### DMS Senior Officer

12/2018 – Present

### Electricity Generating Authority of Thailand (EGAT)

I have worked in the Development Information System Department, where I specialize in PHP, HTML, and CSS languages. My role involves creating web pages for EGAT's users, utilizing my expertise in these languages.

### Skotec Company, work at SCG Building (Bangsue)

Using the K2 application to develop a web application for SCG's users, we gather the requirements and design web forms using smart forms. We utilize SQL Server 2014 and write stored procedures for database operations.

### SIAM KUBOTA Corporation Co., Ltd

I am responsible for maintaining and supporting the SAP modules FI (Financial Accounting) and CO (Controlling). This involves ensuring the proper functioning of the modules, resolving any technical issues that arise, and implementing necessary updates or fixes. Additionally, I provide user support for individuals utilizing the FI and CO modules, assisting them with any questions or difficulties they may encounter while using the system.

### Mitsubishi Motors Thailand (Head Office)

I provide support for DMS (Dealer Management System) issues in the Sale module and collaborate with vendors to customize the DMS system as needed.
