MY EXPERIENCE WORKS

Software Developer

01/2025 - 12/2025

SOLIDITHAI CO., LTD.

at Vanissa Building

SolidiThai, a tech firm, provides Fintech, RegTech, IoT, and Cybersecurity solutions.

- Build SPA features with React and TypeScript; write clean, modular code.
- Develop graph visualization (Cytoscape library): multi-tab, merge and switch, context menu, selections.
- Ant Design (Antd): forms, tables, modal flows, responsive grid, theming, i18n-ready.
- Create reusable components with internationalization (i18n) and responsive layouts; follow Figma designs.
- Manage state with Redux and React Query; implement caching with IndexedDB and handle errors/loading states.
- Write tests with Vitest and React Testing Library.

Junior Front End Developer

12/2023 - 12/2024

EVOKEHUB LTD.

at Sukhumvit 23

Delivering IT solutions that align with business goals, reducing the burden of IT management while enhancing performance and scalability.

- **Developed responsive web applications** using **React.js** for dynamic UI components, improving user experience and engagement.
- **Implemented custom SCSS styles** to create modular, maintainable, and scalable designs, reducing development time for future updates.
- Collaborated with senior developers and cross-functional teams to deliver key project features on time, contributing to overall team success.
- Worked with **RESTful APIs** to integrate data dynamically, ensuring real-time updates across the application.
- Participated in code reviews and applied best practices for front-end development, improving code quality and reducing bugs.
- **Gained hands-on experience with version control using SourceTree and Azure DevOps**, ensuring seamless collaboration and version management within the team.
- Utilized **Agile methodology** to manage tasks efficiently, contributing to project delivery within tight deadlines.

DMS Senior Officer

12/2018 - 07/2023

Mitsubishi Motors Thailand (Head Office)

at FYI Center Tower

Mitsubishi Motors designs, manufactures, and sells passenger vehicles, mini-vehicles, SUVs, vans, and auto parts.

- Providing support to all users in the Sales module, using Document Management System (DMS) for approximately 270 dealers in Thailand.
- Improved DMS functionality by collaborating with 5 vendors to tailor the system to business needs.
- Receiving requirements from users at the head office to customize the DMS to support the evolving business needs promptly.

Information Technology SAP FI-CO

06/2017 - 07/2018

SIAM KUBOTA Corporation Co., Ltd

at Pathum Thani

SIAM KUBOTA Corp. R&D Asia develops agricultural and excavator implements, attachments, and main crop harvesting machines.

- Maintaining and supporting the SAP modules FI (Financial Accounting) and CO (Controlling) for all users in the head office.
- Customizing SAP FI and CO for {200} individual users within the business.
- Assisting all users with any questions or difficulties they may encounter while using SAP FI-CO.

SKILLS

CSS · HTML5 · Figma · Javascript ·

SCSS · Typescript · React · Jira ·

Microsoft Team

STRENGTHS

HTML5, CSS, SCSS

My skills in **HTML, CSS, and SCSS** help me create responsive, visually appealing applications.

React.Js

React.js enables me to efficiently build dynamic, component-based interfaces and manage state with ease.

Typescript

Enables safe, large-scale refactors with strong types/unions.

HOBBIES

★ Traveling to natural places

💎 Watching movies, animation

💎 Playing online games

LANGUAGES

PASSIONS

Self-Discipline

My passion for being a front-end developer has led me to immerse myself in the world of web development, where beautiful websites are constantly created. Whether it's on YouTube, Twitter, or elsewhere, I've noticed that most people dedicate their time to practicing web development. So I believe there's nothing that can't be accomplished if others can do it as well.

MY EXPERIENCE WORKS

IT Consultant and Software Developer 11/2016 - 02/2017
[SKetec Company Limited](#) at SCG (Bangsue)

SKetec company has established by a group of qualified professionals in Hardware interface and Software for business development.

- Using the K2 application to develop a web application for SCG's users, we gather the requirements and design web forms using smart forms
- Utilize SQL Server 2014 and write stored procedures for database operations

EDUCATION

Bachelor's Degree in Computer Science 2012 - 2016
[Thammasat University](#)

Master's Degree in Software Engineering 2020 - 2023
[Chulalongkorn University](#)

SUMMARY

Career switcher from **business** to **front-end development** since **Dec 2023 – Present**. Currently **Software Developer (Front-end)** at **SolidiThai**, shipping React + TypeScript apps. Focused on clean, testable code, performance, and great UX.

Tech Stack

- **React + TypeScript**
- **Ant Design** (forms, tables, modals, grid, theming)
- **Redux Toolkit & React Query** (state, caching, error/loading)
- **Web Workers** (parsing & heavy processing off main thread)
- **Cytoscape.js** (graph visualization: multi-tab, merge/switch, context menu)
- **Vitest + React Testing Library** (unit/component tests, edge cases)
- **Vite, Yarn, ESLint/Prettier**
- **i18n** (react-i18next), **IndexedDB** caching, **Axios/Fetch**
